Part No: GPC-DJI-M600

Additional Features:

Angled notch in top two layers guides the case strap and prevents snagging

Lift straps for easy removal of layers

Included in the case are three foam pads used to support the gimbal.

The pads can be used in varying combinations depending on which gimbal you are using.

The convoluted pad is designed to support the MX.

The ½” and 1” pads can be placed below the convoluted pad individually or in combination to add an additional ½”, 1”, or 1 ½” to support the Zenmuse gimbals.

Also included in the case are two foam inserts which fit into the two front iPad slots.

These pieces are to be inserted in the bottom of the cavity only if you plan on using an iPad mini.
