

RELIABLE OBSERVER

DTC 550 WiFi

Whether used as a photo trap at a food plot or game trail, or to observe nesting activities or even for property surveillance, this camera can do it all. With an extremely fast shutter release of just 0.4 seconds, the MINOX DTC 550 WiFi wildlife and surveillance camera hardly misses a single thing. Additionally, you can record HD videos with sound at resolutions of up to 1080p. At night, 42 black LEDs provide sufficient light to capture images. At a wavelength of 940 nm, they cannot be perceived by humans or animals, keeping the camera concealed at all times.

FEATURES

- Convenient data transfer and control of camera system settings via WiFi connection and app

TRAIL CAMERAS

DTC 1200 | DTC 460 | DTC 550 WiFi

SMART MULTI-TALENT

DTC 1200

Unlimited photos, cloud storage, operation via app, GPS transmitter - what more do you want? With the DTC 1200, a trail camera with 4G transmission, MINOX is entering completely new territory. By implementing an innovative operating concept which includes a SIM card and user-friendly smartphone app, the cumbersome configuration of trail cameras with a transmission function is now a thing of the past. Always the optimal mobile network in all hunting grounds thanks to national roaming. And this with an unlimited number of images at a fixed monthly price. Also clever: the GPS function makes it possible to locate the camera at any time.

MINOX MULTI-SIM CARD WITH UNLIMITED DATA VOLUME.

€ 14.99* PER MONTH

*Current costs: € 14.99 per month (incl. VAT), monthly cancelable, price subject to change. Further information and current tariff: minox.com/app-dtc1200

HIGH-TECH IN DISGUISE

DTC 460

Conspicuously inconspicuous, the new DTC 460 wildlife and observation camera blends in perfectly with its surroundings. Once you have attached the photo trap to a tree, it becomes one with the bark structure and is hardly recognizable. In use, it boasts of state-of-the-art electronics optimized for outstanding nighttime operation, and innovative Hi-Beam LEDs for photo and video sequences in all light conditions. The practical bar magazines make it easy to change batteries - even with clammy fingers in cold and wet temperatures. Optionally, the front panels can be easily replaced so that you can adapt your master of disguise to the environment.

*3 optional front panels for the perfect disguise in the wilderness.

FEATURES

- Interchangeable front panels to adapt to various surroundings.
One front panel with a rough bark pattern is included in delivery
- Bar magazines for quick battery changes
- Slim housing - only approx. 34 mm deep
- Data storage on SD/SDHC card up to max. 32 GB
- Shutter release 0.7 sec.
- Photo resolution up to max. 12 MP
